4-year old Cole Crowder shows some pretty good form while taking aim at this blackbuck antelope!

President's Message

Hello Archers

Hill Country is behind us and I will have to say it was great! As always we forget to thank so many people like the Currys, owners of BSR, Bryan & Debbie Keeling, the managers who do so many things that even we do not see in preparation for the shoot, Pat Handley, our Range Captain who handles much more than safety issues, Brenda(who spends most of her time in that trailer with Peggy recording scores), Bryant and Sandy Stein, and countless others that are too many to mention. Please tell Your Area Reps thanks for their free and loyal labor of love.

So glad to see so many vendors and the tasty food prepared by the Girl Scouts. Donations were up this year. We were happy to see the sale of 439 cards for score and over 100 fun rounds.

Thanks to the many archers who attended and drove long distances to join in our rather diversified family. We had a lot of young archers and the OBC's (you know who you are). So much fun and only less than a year from the next one, we are already planning.

Da Prez

Wm. H. (Bud) Murphy Jr.

I want to personally thank the volunteers who helped me with the registration table and all that goes with orchestrating this event and preparing the scores. Many of you may not know that Martha Hundt is the one behind formatting our scores and getting them posted to the website so quickly. Great job Martha!

We have more shoots coming up. Visit our shoot schedule at tbot.org for details as we continue to add new events.

EDITOR'S NOTE:

Please give me some help! I need stories and pics for future issues. If you shoot an animal or snap some great pics at a shoot send them to me. Also, if you have a really great experience afield with your trad gear, write a story and send it to me so everyone else can read about your great times.

I got a grand total of **ZERO** member contributed stories and very few pics in the last quarter and my small cache is running out.

3. Arrows are to be no less than 6" shorter than the draw length of the archer using the bow, e.g. to allow for Turkish, siper-type overdraws but to disallow vertical crossbows. Broadheads are not allowed.
4. Release shall be accomplished with the digits of the drawing hand.
5. Binoculars are allowed at all TBoT tournaments, but shall not be used once the shooter is at the shooting stake. No rangefinders allowed.
6. Minimum of Three (3) shooters/participants per group. If family members shoot together, there shall also be at least one shooter in the group that is NOT related to the family. No shooting alone.
7. Score keeper must be a shoot participant and be able to visually validate scores.

11. Fun rounds are welcomed but can only be shot after all scoring rounds are shot and score cards turned in.

2. A grievance fee of \$20 must be paid at time grievance is filed and is non-refundable.

Legislative Update

All seven of the TPWD proposed changes to the hunting regulations for the upcoming 2012-2013 season were passed as written. Three of those changes are very favorable to the bowhunting community.

The deer season structure for Grayson County is altered from archery-only, special season to archery-only, full-season. In addition, the taking of antlerless deer by permit only is changed to allow for either- sex hunting.

This same archery-only, full-season, either-sex deer hunting will also be allowed in the contiguous counties of Collin, Dallas, and Rockwall. The deer season had been closed for these three additional counties since 1976.

Galveston County has also been opened up for deer hunting. It also had been closed to deer hunting for many years. The season will consist of an archery-only season, a general season, and a special late muzzleloader season. The Galveston County deer hunting seasons and regulations will be the same as those of its contiguous counties (Fort Bend, Harris and Brazoria).

The only other hunting regulation change of note is to allow the use of sound suppressors on rifles. Of course as Bowhunters, we have been using sound suppressors on our bow strings for years.

The rutting buck stopped abruptly in the deer trail, hesitated a moment before he made a 180 to escape.

Too late! The home made wooden arrow, fletched with 5-inch turkey feathers and tipped with a Bear Razorhead, slammed into his left side—a bit high—but enough to knock the buck down and paralyze his rear end. It was Thursday, November 16th, 1961; opening day of the regular Texas deer season. The afternoon turned out to be the most comical event of my hunting experiences.

I was a graduate student at Texas A&M, married with three young sons, and with a tight budget. I managed, however, to scrimp and save \$75.00, for a one-year, bowhunting only lease on Carson Pryor’s Ranch near Wheelock, Texas. Forty bowhunters were crowded on the 1800-acre ranch. To me, that seemed like a lot of hunters. This wouldn't cause problems. The ranch was overgrown with yaupon, green briar, oaks, and other species of trees and offered many places to ambush deer. Too, most of the hunters were from the Houston area and only hunted on the weekends and on holidays. This was ideal for me because it was a 30-minute drive from College Station to the lease and I could hunt during the week and not worry about the other hunters.

In scouting places for a treestand, I had found a gnarled live oak tree that had a perfect seat about eight feet up and six yards from a well-worn trail that ran east and west. On the sixteenth, after cutting a few small oak branches obstructing my view, I pulled up my bow and settled on the limb and lit a cigarette. I glanced around to see what was stirring the dead leaves nearby. An armadillo, maybe a squirrel? Nope; it was a 7-point buck in the trail a mere nine yards to the west of the oak.

I put out the cigarette and raised my bow. Before I realized what had happened, the buck was down and pawing with it’s front feet to drag itself into the underbrush. The arrow had broken the buck’s back. I snapped a second arrow at the buck. A miss! Frantically, I dropped from the tree to the ground and eased cautiously toward the struggling buck. I aimed carefully at the buck under a yaupon and released the third arrow. Thunk! The arrow buried into the ground four feet in front of me.

Calming myself, I nocked a fourth arrow, aimed, and released. I jerked my bow hand fiercely upward and the arrow passed harmlessly ten feet over the buck. I nocked the fifth—and last arrow—and eased cautiously toward the buck and planted the arrow into the left side of it’s rib cage. It was 3:30pm.

Buck fever had grabbed me, but I had the buck!
